4. Prior Lake (East of
Highway 13),
Southern Shakopee
5. Savage

County Highway 21

County Highway 12

Ever want to tell the county engineer what needs fixing? Here's your chance!

Every year, Scott County updates the ten-year Transportation Improvement Program (TIP) as part of the annual budget process. The TIP identifies funding for the reconstruction and improvement of highways, trails, and bridges; transit facilities; and other projects to improve safety along County highways.

This April, Scott County will host informational and public input meetings within each of the five Commissioner Districts to engage residents in the decision-making process. Each session will include an opportunity for residents to share their thoughts on project ideas, areas of safety concern, and ask any transportation-related questions. The upcoming TIP public outreach meetings will be held at the following times and locations:

Transportation Public Outreach Meetings

April 3rd, 6:00-8:00 PM, District 2
